Greetings!

At the November 14, 2022, Council meeting, Council approved the change in designation of 825 Cliffe Street from Park and Open Space to New Neighbourhood and provided for a 30-day period for filing objections.

If the New Neighbourhood will be another car-centric exclusively residential neighbourhood, then I must object to the change in designation.

However, I could be persuaded to reconsider my objection if the New Neighbourhood will be a people-centric neighbourhood with easy access to public transit and with proximity services (store, pharmacy, post office, playground, restaurant, pub, café, clinic, daycare, etc.) located within a 10-minute walk from every residential door.

Respectfully submitted,

Giovanni A. Merlini
