

January 8, 2023

Dear City Clerk,

A corrections facility has no place near a densely populated neighborhood, in Vanier Industrial Park, nor any other location in the City of Fredericton that has such a close proximity to existing and planned residential and other non-industrial developments. The City of Fredericton taxpayers should have been made aware of this request and had an opportunity to voice their concerns before any process began. There has been zero transparency both Provincially and Municipally and the entire process comes across as very underhanded to the point of both the City and the Province referring to the area as “remote” on many occasions.

A concerned group of taxpaying citizens has been working diligently to raise awareness about the current rezoning request for the proposed location of the new corrections facility located in the Vanier Industrial Park, but the Holiday season is a difficult time to get people’s attention. We know given the time and visibility this petition would have a much larger response, and many City residents think the PAC meeting was the end of the zoning request which shows the state of the issue is anything but clear.

Despite these challenges, this group has completed a community mailbox poster initiative, a door to door and online petition campaign, in addition to raising the awareness at the Boyce Market and will continue to do so until the voting date of Jan 23rd.

Please find immediately following, the detailed petition text along with 818 signatures of support against the rezoning, complete with comments that we have collected to date.

Please share this with the City Council prior to the meeting.

Thank you on behalf of the concerned petition supporters,

Chris Collins

# Petition Against Proposed and Future Correctional Facilities In The City Of Fredericton

**To Be Discussed at Fredericton City Council Meeting on Jan 9th, 2023 at 7:30pm - PLEASE ATTEND IN PERSON TO SHOW YOUR SUPPORT**

On October 31st, 2022 CBC published an article about the "Error" on the council agenda which immediately stoked concerns about a possible site for new Fredericton jail. This was followed up by a post from Kevin Darrah - Fredericton Ward 7 Councillor on November 25th, informing his constituents of the agenda item for the November 28th Planning Advisory Committee (PAC), of the proposal of a correctional facility within the City of Fredericton boundary by the Government of New Brunswick (GNB). On November 28th, Fredericton City Council voted 6-4 to sell land at the end of Blizzard Drive in the Vanier Industrial Park ( [MAP](#) ) the Province for the proposed correctional facility for \$1,075,000. For the project to continue, the land must be rezoned and allow for that type of establishment in the area. **To date, residents have not been consulted, nor advised why this specific plot of land was chosen over the other 19 locations reviewed.**

On December 14th, Fredericton's PAC recommended that council deny the zoning request by a vote of 4-3, due in large to presentations, speeches, and correspondence from impacted residents. January 9th will be the first and second readings of the proposal to City Council, followed by a third reading and VOTE on January 23rd where a majority of 7 votes is required to move the process ahead. **NOW IS WHEN RESIDENTS OF FREDERICTON MUST TAKE ACTION**

By asking the City of Fredericton to reject the rezoning proposal specifically for the Vanier Industrial Park location, and to further reject any correctional facility proposals that are adjacent to a neighbourhood within the City of Fredericton boundaries.

The current proposal affects **thousands** of City residents, yet it claims the location is remote and also insinuates that it is NOT adjacent to a neighbourhood despite it being with a 2km radius of over **700 current residences** with the closest existing being under 950m away, while planned and approved future development for the area will bring the closest residence to under 500m away and the total count to over **1000 homes**.

A detailed report that was submitted to the Planning Advisory Committee outlining some of these concerns as they relate to proximity to residential areas is available [here](#). This report is largely focused around property values but contains a lot of information on existing jail sites vs the proposed one.

**Without the rezoning, this project will not go ahead. Please sign the petition against the rezoning and attend the City Council meeting in person on January 9th at 730 PM and have your voice heard. Whether you are opposed to this location in particular or ANY future location in the City or Province, this petition is an important part of having your voice heard.**

Please submit one form per household member that is at least 18 years of age that would like to support this petition, and please contact us at [frederictonjailpetition@gmail.com](mailto:frederictonjailpetition@gmail.com) if you would like to help or have any questions.

Thank you!

# Petition Responses

The following is a list of individuals who support this petition text above.

This data was collected via a combination of on-line via [www.frederictonjailpetition.ca](http://www.frederictonjailpetition.ca) and limited door to door canvassing. It has been sorted by City Resident status, and then by Last Name, First Name.

These responses have also been screened for any duplicate records and the provided data contains unique self-identified voting age respondents only.

Email addresses and Street names are on-file for most entries in this list but are not being provided here to protect their personal information but may be available on request provided that specific respondent provides consent to release that information.

# Detailed Petition Comments

Last Name	First Name	Postal Code	Comments
Afinec	Natasha	E3B 0P9	Though I reside just outside the Fredericton city limits, the proposed site would be approximately 2kms away from my home. My children live here. They should not be forced to live so close to a penal institution. Please consider building a correctional facility in a remote location in the province where young families will not be significantly impacted.
Alexander	Heidi	E2V 0J4	This absolutely should not be going up where it is. It will put so many people in danger.
Amirault	Jason	E3B 9N4	Too close to growing subdivision.
Andrews	Danielle	E3B 4V4	I do not agree with a correctional facility so close to our residential area.
Anupindi	Subramanyam	E3B 0E3	Jails can't be in city limits and family neighborhoods
Arias-Cardozo	Jose	E3B 7J6	I'm against the proposed and future correctional near my neighbourhood.
Arsenault	Mandy	E3B 7J7	Placing a prison across from a residential neighbourhood is unacceptable.
Asprey	Christine	E3A 3S1	Would need to be more remote and outside the city.
Atkinson	Geoff	E3A 4S8	Correctional facilities near neighborhoods cannot be safe + proper consultation should be required for any decisions affecting residents' safety, quality of life, property values, etc.
Atkinson	Jodi	E3A 4S8	Absolutely ridiculous to have a jail within city limits and so close to homes and parks. No reason for ANY jail to be within a city in NB. Lots of woods out there far from any neighbourhood. Build a road and build it FAR from families.
Aube	Kateryna	E3A 0M1	It is not going to be beneficial for the development of the city. Such facilities should be built outside of the town
Barr	Laura	E3B 5B5	The location is not conforming to the list of requirements outlined as it is adjacent to a large neighborhood with young families. The other 19 locations have not been disclosed and airport implications were not considered
Barry	Grant	E3A 5S4	I am not comfortable with the manner in which this proposal came to light and the lack of transparent communication with residents by the City and the Province. I also think the money earmarked for this project could better serve our province if it were instead put toward social supports, mental health services, etc.
Barry	Josh	E3A 2N8	Put money into grassroot education, innovation, and healthcare
Barry	Matthew	E5H 1E5	We do not need more prisons in our province, we need better schools and more financial aid & services for the downtrodden.  Putting a prison within a kilometre of New Brunswickers' homes with the history of prison escapes that we have in this province is the definition of a bad idea. It endangers New Brunswickers, it's in a bad spot regardless, and is completely unnecessary.
Barton	Jennifer	E3B 5J8	I oppose having this facility so close to residential areas. I suggest building this facility in kingsclear where the previous correctional facility was located
Beal	Brennan	E3B 7J7	This money could be MUCH better spent on programs to actually prevent crime, such as economic stimulus, mental health support, medical care support (doctor incentive programs to get more doctors in the province), bill relief programs, etc. Jails don't prevent crime and they don't make cities safer. Giving citizens a good standard of living makes cities safer.
Benoit	Lucas	E3B 7G2	Put the jail where it doesn't ruin people neighbourhood

Bilodeau	Stephanie	E3B 7J6	The Province should invest in mental health services and affordable housing rather than a jail located near a residential area!
Bishop	Amber	E3B 9H6	Could we look at using these funds to support mental health and addiction? Jails do nothing to support the needs of the vulnerable.
Bishop	Eleanor	E3B 9L3	Would you want this in your backyard
Bishop	Sarah	E3B 9J4	No thank you. I don't want a jail near my house.
Blanchard	Jeanne	E3B 7X3	No jail, it is bad enough that we have so many homeless people
Boudreau	Serge	E3B 3K3	This location should not be considered, as it is too close to residential communities. Please keep those residents in mind and the economic effects this could have on their properties, not to mention the impact on their mental health in living so close to such a facility.
Brigham	John	E3B 7J6	I am NOT in favour of the land rezoning in the Lincoln Heights area for a proposed jail.
Buchanan	Tammy	E3B 4T5	Is this government so determined to build this jail to solve the homelessness crisis? Round up all the homeless people and put them in the new jail? Priority should be healthcare and mental health supports..... Not building an unneeded and unwanted jail.
Buonvino	Mark	E3B 9L3	I just purchased a house here because I was told that it is a very good area to live in. Now we are talking about putting a jail near my house. Not happy at all and not fair either. This is a decision that we should be making and not the city.
Burke	Blair	E3B 7G3	Opposed to this location.
Burke	Patricia	E3B 7G3	Opposed to this location.
Butt	Nicholas	E3B 9Z5	Wilsey Rd/ Allison Blvd
Cairns	Krista	E3B 9J4	The proposed location, so close to a residential neighborhood, is simply not acceptable. But more importantly, mental health really must be a focus, as we have seen over the last few years. This would likely help decrease the correctional population as well.
Canning	Scott	E3B 7J7	I am concerned for the safety of our neighborhood
Carpenter	Kim	E3B 9H5	Opposed to the location in the industrial park.
Carr	Janet	E3B 1H9	What is wrong with the current jail? Why not put it in the north eg Dalhousie ?
Casey-Kidd	Ellen	E3A 4G6	We should not be putting millions into building a jail. Instead put that money toward helping people with addictions and mental health problems.
Casey-Smith	Krista	E3B 7G3	The proposed jail is too close to a neighborhood. There are safety concerns and people's properties will be devalued. There is plenty of space on crown land, away from built up areas, that the facility could be built on. Instead of jailing people treat the roots of the problem. Spend money on literacy and treating addiction.
Castillo Guerra	Eduardo	E3B 7J7	The crime rate in the province does not justify another jail. A jail of any kind so close to a neighbourhood is dangerous and reduce the value of the properties in the area. With so much space in the surroundings of Fredericton, what is the need for a jail within the city limits. The jail plan looks more like a business case that the solution to a social problem that does not exist. Lincoln height does not need a jail. I wonder how the politicians planning this jail would react if the jail would be in their backyard.
Castillo Morales	Eduardo	E3B 7J7	A jail so close to a neighbourhood is a safety concern to me and my family. It will likely affect the value of the properties in the area.
Caulfield	Dorothy	E3B 5T3	no jail , just too pricey
Cawker	Debbie	E3B 9L5	There needs to be more transparency of actual fact from GNB & the City of Fredericton as this did not happen on Dec 14th. The jail should be outside

			of of the city in a rural area not anywhere close to growing community like Lincoln Heights.
Cawker	Douglas	E3B 9L5	Definitely don't want a jail anywhere near our neighbourhood!
Chaput	Janice	E3B 7J7	Having a jail so close to our neighborhood would jeopardize the safety of the people in our area. Out house vaule will go down.
Chase	Anna	E2V 3V5	Not in the busiest part of our city. Possibly in the industrial park area.
Chiasson-Rail	Nathalie	E3B 7G9	A jail should not be built that close to any neighbourhood. It should be located very far as possible from residential areas. Money would be better spent on mental health services instead than on jails.
Chowdhury	Maksudul	E3B 7J7	I do want the Correctional Facility to be built on the proposed Lincoln area.
Clarke	Chris	E3B 6J2	please reject the rezoning - it's too close to residential AND schools that have our children. Very poor suggestion to put it so close
Collette	Maurice	E3B 0H6	Totally unacceptable to build a correctional facility in the backyard of a residential area putting us at risk.
Collrin	Mark	E3A 4V3	More thought needs to be put into location. A prison adjacent to a residential subdivision is just the worst idea ever. Bad plan, folks. Bad plan.
Cormier	Carol	E3B 9L3	I reject the Proposed and Future Correctional Facilities In The City Of Fredericton
Cormier	Chantal	E3B 7J6	I oppose to the building of a jail next to my neighborhood as it will affect my quality of life, my safety and mostly will bring the value of my house down
Cormier	Kevin	E3B 7G3	As a resident of Lincoln Heights for the last 6 years, I do not support the building of a proposed correctional facility on the Vanier Industrial Drive in Fredericton, New Brunswick. I have a young family, and did not purchase my home in this lovely and quiet neighborhood to have a correctional facility built within walking distance of our home. If the proposed facility is built, I will not have peace of mind allowing my child to go play at the park with her friends, or biking around the neighborhood on her own or with our neighbor's child. I'm also concerned about the resale value of my home with a correctional facility so close. I ask those proposing this deal, how would you feel if a correctional facility was built on the outskirts of your neighborhood, within walking distance of your home?
Cotter	Frank and Mary Lou	E3B 7J6	New Maryland would be a good location because it has all services available.
Cox	Theresa	E3A 0S8	I, Theresa Cox, do not feel comfortable about having correctional facilities or future ones near or in Fredericton. There has been more violence around us in the last few years. This fact has jangled my nerves and caused me to wonder when other innocent people could be affected by more of the same. Is it possible that the comings and goings of those incarcerated, their friends, or families could cause danger for us? Even if 1 episode should took place; that would be enough. Thank you for the opportunity to share my thoughts and concerns. Sincerely,  Theresa L. Cox
Crealock	Janet	E3B 6J5	Against
Cudmore	Amanda	E3B 9H3	There are places not downtown to build a jail, don't be ridiculous
Cushing	Aaron	E3B 5K4	I'm not opposed to a correctional facility being built near the city, but there should be a fairly significant buffer zone between it and homes and commercial properties. Building it nearly adjacent to a robust trail network and recreational area also seems foolhardy.
Daley	Karen	E3B 0E9	Completely opposed to the construction of a new prison in Vanier Industrial Park. If one is needed, it should be located more than 10 km from residential areas.

DeCourville	Nancy	E3B 0C9	Spend the money on helping people (housing, mental health, addictions, etc.) not on a jail. Have we learned nothing about why people end up in jail? Spend the time and money to prevent crime.
Dedam	Chantal	E3B 9L3	Put it in your own backyard, and away from ours!
Denisov	Denis	E3G 4K1	I would not like to see any jails IN or OUTSIDE the city of Fredericton
Deorditsa	Tetiana	E3A 4W8	There is neighborhood with our friends from Ukraine, and also a lot Canadian, it's not safe to have a prisoners around city area and our living district. Hope, the government will be able to find another place for building prison.
Di Feo	Nick	E3B 9L3	I think it should be made clear that we're prepared to take up legal action against the city to recover compensation for lost property value
Dorian	Clair	E3B 9T2	I do not want a jail in my backyard
Doucet	Mary	E3B 0H2	I am against having a correctional facility so close to my home. There must be more appropriate areas not in such close proximity to family neighborhoods.
Doucette	Megan	E3B 0E3	I like the Wilsey Rd location not Vanier Industrial Park
Douglass	Eric	E3B 9J2	Stop and think, please.
Edgar	Adrian	E3B 1H5	We are looking to our elected officials to abide by evidence. Incarceration only inflates recidivism. Whereas, investing in housing, decreases it. Let's use our brains. Please.
English	Christy	E3B 5J4	This parcel of land is far too close to where I and others live. The development should be outside of the city limits and not near Oromocto or Lincoln either.
Evgeniya	Moneva	E3B 9L3	There are millions other things our city needs then a new jail. Definently didn t planned to leave by the jeil when chose that location to buy a house, and many new commers will definently consider this factor when chosing theirs and I think will have to make a significant decrease of pricing whne I will be looking to sale one day to make up for the close by jale . Fredericton is surrounded by forests, it shouldn t be such a issue to find a plot where no nier by area will be ruined by its presence if it is so vital to hve such a stucture here, But it turns out there are so much that could be done to avoid people beeing sent to jail. By building one we are not taking care of the issue just looking into cevering a symptome of many disfunctional institutions...
Farooq	Fahad	E3B 0H6	Definately against the Idea of building jail, my house hold will be the most effected one as the distance from house to jail will be around less then 200m, and there is no natural barrier inbetween so the dirt road or ditch connecting directly to road of vanier highway and entrance to industrial park is also visible just outside from my house.
Fawcett	Brittany	E3B 9L3	I moved to this neighbourhood so that my children could be surrounded by a loving family oriented neighborhood. This facility will be built almost in my backyard and I fear what affects it will have on the resale value of my home, and the safety of my young family.
Fawcett	Henry	E4Z 4N1	Very poor decision to place so close to a family community. My grandchildren live here and I am very concerned to have the jail next door. They feel they would be forced to relocate and the value of their home would go down. Hardly ever any police supervision either.
Fawcett	Marion	E4Z 4N1	My son. His wife and two children live on Dora Drive in close proximity to where the jail would go. We and they are very concerned about this to the extent they would consider moving
feng	xiuming	E3E 0C3	I have numerous concerns regarding thew idea of building a prison in fredericton, it puts way too much pressure on the civilian and the police force in fredericton once someone escapes from the prison.
Filion	Leona	E3B 0H6	Wrong place

Foisy	Caroline	E3C 1B7	We need to invest in mental health services to avoid sending people to jail. Not in favor of a jail in Fredericton.
Forsythe	Greg	E3B 5S5	Too close to two subdivisions
Forsythe	Muriel	E3B 5S5	Too close to large subdivisions with many young families
Fox	Jared	E3B 0E7	My family of 5 will move if a jail built near our home
Gagnon	Marc	E3B 0E3	Literally in my backyard from the open view cut trees accros harland court. 1km away....
Gallant	Cedrick	E3B 9H5	As a resident of Lincoln Heights I feel very uncomfortable with the potential of having a Jail on the other side of the Vanier Industrial road. This entire neighbouring area is filled with lots of families and children of all ages. I can't fathom why anyone would think it is safe to detain convicted individuals right next door. For those that may not be concerned with safety it will lower the value of homes in the area which undoubtedly will make it difficult for future retirees to sell their homes to downsize due to the loss of home values.
Gamble	Jeremy	E3B 1P3	I do not approve of this use of resources. We need solutions that are sustainable such as social programs and affordable housing/living.
Gao	Yang	E3B 7G6	Support the petition
Gay	Jodi	E3B 5M2	The provincial Government could give no data on why this jail was need. It isn't. It's just a lazy solution to societal issues. The have been actual studies done that show that education, affordable housing and excellent mental health services are what lowers the need for jails. This government has shown it does not care for its people. Just easy non face based solutions that give money to corporations.
Geneau	Natalie	E3B 9L3	I worry about my 2 young grandsons in this neighborhood and having to live in fear for their safety. Not to mention the negative impact on my family's home value should they be forced to relocate due solely to the close proximity of the proposed jail
Geneau	Ron	E3B 9L3	I oppose this proposed location due to the impact it will have on my family and grandchildren and the mental stress it will create on everyone.
Gillespie	Cheryl	E3A 3R7	Thoughts: I don't feel a correctional facility is appropriate within city limits. Regarding the system in general - It needs a focused drug rehab program (30 days is not enough) plus education, skills, and overall life coping tools included before sending offenders back into society. Without such tools, they will simply reoffend and go back into the system.
Godin LaPlante	Lisanne	E3B 9X7	Our family doesn't support more jails, and definitely near a very family friendly neighborhood.
Goel	Rajeev	E3B 9S2	I oppose construction of Correction facility at Proposed Vanier high way location. It is unsafe for residents in area.
Grady	Chris	E3E 1A2	The jail is needed but there should be more thought put into the location. As capital city of New Brunswick, Fredericton has a responsibility to the entire province.
Hall	Michelle	E3B 7J7	NOT so close to a residential area!
Hamel	Jennifer	E3B 0E9	City Councilors, please vote no to rezoning the lot. Agreeing to have a jail this close to a large residential and family- friendly neighborhood (700+ homes) will cause harm to our community. It will negatively impact our mental health and our home values. You have the report and actual numbers that show how other neighbourhoods in New Brunswick have been adversely affected by being in close proximity to a jail. Please vote to keep this jail out of our backyards.
Hamel	Rob	E3B 0E9	A jail cannot be located next to a residential neighbourhood or there will be a negative impact on that neighbourhood.
Harichane	Khadidja	E3B 9S2	Why would the government allow for a jail to be close to a residential area? There are a lot of kids in my neighbourhood. Our families need to be

			protected. We will not feel safe and will live with stress. I am against a jail in near my neighbourhood.
Hayward	Susan	E3B 7G2	It has always been my belief that money should be spent on prevention (addiction recovery, therapy, housing, social programs) rather than on incarceration. I also do not think it is an appropriate site so close to many family homes.
Hersey	Corinne	E3A 3E8	Deplorable decision on every level. We need rehabilitative services, mental health services, low income increased... As the city insists on pouring thousands of people into the city, there will be more crime... this is a given based on every piece of research. The city is creating their own problems... When there is a city that is unaffordable, the city and province need to do more to help people live there - not pour resources into locking them up. Once they are released, they will be poured back into the street - not only people from Fredericton, but anyone who is incarcerated here. This is another stupid decision city hall is making...
Hoque	Mohammad	E3B 9K8	Rather choosing the distance from the jail gate to the nearest household, requesting to know the actual number of houses are affected in 3 kms radius from the jail gate.
Hughes	David	E3B 0E9	I am 100% against rezoning and 100% against the building of a prison this close to our neighbourhood. A prison this close to our neighbourhood would only drive down our property value and put our families at unnecessary risk. This is completely unfair to the tax paying families of our neighbourhood. Fredericton City Council should be ashamed for even proposing such a venture!
Hughes	Kathleen	T3G 1C6	This is not about NIMBY. This is about a lack of funds to prevent the need for prisons. Fund mental health, rehabilitation, and social development. Where are the statistics that a prison is even needed?
Huq	Tanzina	E3B 7J7	I strongly support this petition. I am against to build the jail facility near Lincoln or Fredericton city.
levets	Olena	E3B 9N4	I am strongly oppose to the proposed location.
levets	Volodymyr	E3B 9N4	I am strongly oppose to the proposed location.
Ingram	Ryan	E3B 9T2	I strongly oppose the idea of a new jail in such close proximity to my residential neighborhood. I would call it adjacent to.
Islam	Md Dedarul	E3B 9R9	This location is not suitable for prison. Lincoln heights is one of the largest neighborhood in the city with many young children. I would like to know that based on what this location was more preferable than other locations?
Jenkins	Delbert	E3B 7J7	After reading through material available and attending the zoom meeting. I find it hard to believe that residents were never consulted or that disclosure was made of the other proposed sites. Seems to me a facility of this nature should be in a remote location for everyones safety.  DEFINTLEY OPPOSED
Jennings	Jason	E3B 9X5	What criteria was used to determine an appropriate location for a jail.  What locations were considered  Evaluations of potential sites against those criterion
Jensen	Patricia	E3B 7G3	I Support the Planning advisory decision
Jensen	Paul	E3B 7G3	"Easy access highway and sewer and water connection" would not seem to be adequate grounds for City Council to modify a zoning by law while disregarding the recommendation of its own PAC and the objections of local property owners and residents.
Ji	Yolanda	E3B 6H8	The location is Not fit in Lincoln

Jian	Xiaoyun	E3B 2X2	My family is against this proposal aims strongly believe that it should be relocated in a remote area.
Jianmin	Kou	E4B 1H2	Our city will be not suitable to live in for people in Canada, it will be loosed quickly.
Jin	Lei	E3B 4R4	Fredericton doesn't need a jail immediately but facilities for homeless people
Jones	Mel	E2V 1H4	A jail shouldn't be built within the limits of a school zone, airport or suburban neighborhood. Planning committee should be thinking about the kids that would be affected, should a convicted felon escape. We also don't know what level of security this jail would be. Is it at a fed level? Military? Provincial? Municipal? Is it min security? Max security? More details need to be made public.
Keleher	Lynn	E3B 9N4	This will drive down prices for our neighborhood and is far too close to the populace.
Keleher	William	E3B 9N4	No Jail
Kerr	Daniel	E3B 7G8	This is not in the publics interest. This project is being spearheaded by a developer who has no regard for the community.
Khaitan	Krishna	E3B 9L3	The proposed location is not suitable
Kondratenko	Tanya	E3C 0H5	Such facilities shouldn't be neear a city limits, let alone in a city limits.
Korotkov	David	E3A 1M8	The facility is just a band-aid solution. How about prevention first through job development?
Labrie	Dominick	E3B 7G2	Like others have said, the requirements were definitely made up to fit the site and not the other way around
Lai	Jinhui	E3B 5Z8	Very good location
Lanteigne	Mike	E3B 0T3	All it takes if for one bad mistake and you have a criminal in the city. Far too close to family neighborhoods. Big safety concern wake up people.
LaPlante	Bruno	E3B 9X7	Our family doesn't support more jails, and definitely near a very family friendly neighborhood.
Lavoie	Huguette	E3B 0H6	Totally unacceptable to have a correctional facility located less than 1 km away from our house, putting local residents at risk.
Lawrence	Jenna	E3B 9V9	My house is walking distance to this proposed location. There is a popular and public walking trail that runs directly behind my house that leads directly toward this location. It is a short 15 minute bike ride to the location from my house. This is not remote. I am opposed to the building of this jail.
Leblanc	Marco	E3B 9W9	Build it in Kris Austin's backyard instead
LeClair	Regan	E3B 7J7	I have huge concerns on how this will impact our property values.
Lee	Aileen	E3B 0H6	I agree a new jail is needed ,but not close to a subdivision it should be located away from any sort of residential area
Lee	Andrew	E3B 0H6	I agree we need a new jail but we do not need one close to a family oriented subdivision,I believe it will be extremely detrimental to our area on many levels .
Lee	Stuart	E3B 9L3	Security reasons alone, and a Devaluation of our Homes, its totally not a place to put this facility there are far better places far away from decent communities for its allocation
Legere	Sheila	E3B 9Y2	It is too close to a large subdivision
Li	Jing	E3B 0H3	My concern is about the safety in this area after building the new jail. No one wants to live in a house which is near from the jail.
Li	Xia	E3B 9L3	1) negative impact on Houses value 2) Safety (including residents walking/biking on trails) 3) Mental health ("psychological safety") of neighbourhood residents. Especially kids.

			4) Residents will leave the area 5) Removal of trees may augment the annual flooding and damage more properties.
Li	Xiu-Qing	E3B 6J5	I think it is too close to the residential area.
Liang	Hiang	E3B 6L4	I am in supportive of this correctional system because it will bring highly risky for whole community.
Libin	Grigory	E3C 1L9	A jail should be in the woods away from the city
Linnea	Vandenberghe	E2G 1J9	This proposed location will without a doubt affect the value of the homes located in the area. Look at the values of the homes in the area of the Saint John jail. Most people in search of a home won't even look at properties that go up for sale around it. More focus and money needs to be put on mental health services in order to help people stay out of these facilities in the first place.
Liu	Lihui	E3B 7G6	Support the petition
Liu	Xin	E3B 7G2	I strongly against this decision! Not just for the houses in this area will be devalued , but also for the safety of our children! Our community has many young families, their children need a peaceful place to live! Don't destroy our home!
Locke	Autumn	E3B 1K3	I respect the impact the jail will have on home and people who live nearby, but I feel like perhaps alternative angles for why a new jail isn't necessary (of which there are a significant number backed by research and evidence). I don't believe the province should be making a new jail, but I also have no respect for NIMBYism
Long	Angela	E4B 1W1	Quit wasting our money on stupid crap that we do want or need! Enough!
Long	Summer	E3B 1K9	Another jail is not a solution to anything!!! Why not use this money to build more public housing and or shelters for people in need.
Losier	Danielle	E3B 0E3	City went way too far in planning this without consulting with public - very concerned
Losier	Michel	E3B 9S2	Too close to houses - housing value and safety concerns
Losier	Norma	E3B 9S2	Too close to houses !!!
Losier	Mathieu	E3B 9S2	Too close to subdivision - safety and housing value
Lougheed	Leyla	E3B 9R9	I am in strong opposition on building a jail is such near proximity to Lincoln Heights.
Lowr	Lonzel	E3B 2J1	Less jails please
Luba	Zoe	V5M 1A5	Prisons lead to more harm and violence rather than reducing it - we need more money going towards affordable housing and social assistance rates, not more prisons.
Lund	Dean	E3B 0H4	Poor location especially close to residential area - many other suitable locations available in province and will also provide employment opportunities.
Lund	Emilie-Anne Lund	E3B 0H4	The location will result in a decreased housing value. There is a growing community and housing expansion in the Lincoln heights neighborhood, the location of the prison would cause negative reproductions in this area.
Lyons	Jean	E3B 6J2	I am totally opposed to the jail being located in the Fredericton Industrial Park. I suggest the former Kingsclear Reformatory location, already a provincially owned property
MacAlpine	Karen	E3B 7J6	'Not in ANY neighbourhood. Along with many reasons, the fact that our neighbourhood is heavily populated and so close does not compare to examples the province has given with simply a few homes within that same distance (including natural barriers). The fact that the jail this is being modelled after, had a break out this past summer, is reason enough to not have it less than a 5 minute run

			away from hundreds of family homes and children. "Only a few hours" to catch an escaped murderer awaiting trial, is not ok. It isn't a matter of 'not in our neighbourhood' it should not be in ANY neighbourhood.
Macdonald	Naomi	E3C 1M6	Near the airport? Near the highway? Near residences?? No way, terrible decision, awful idea to build a jail in Lincoln Heights.
Mackay	Loreigh	E3C 1E9	I can not support a corrections facility any where near Fredericton or surrounding communities. I am concerned for the residents in the inevitable event of a an escape.
MacLeod	Mary	E3B 9N4	I am strongly against having a correctional facility very near my neighbourhood or any other neighbourhood! My husband and I worked extremely hard to choose a location that was suitable for his work and mine, as well as located near great schools. We saved our money and purchased our home. We have wonderful neighbours and love it here! The possibility of living in fear if this facility were to be built, shows how little regard Fredericton has for its hard working citizens. I do not want this in my backyard!
MacNeil	Chrissie	E3B 2P2	we don't need more jails. We need housing, access to basic income and education and help and facilities for access mental health
MacPherson	Misty	E3B 7G8	I do not want a correctional facility in the area but interested to know if my property taxes would be cut in half if this was to go ahead and also if this building would eliminate the smell from the dump? Thanks
Maher	Linda	E3B 9X6	Our household is NOT in favour of rezoning the Vanier Industrial Area for a Correctional facility! The area is definitely not in a remote area, in fact it is far too close to our neighborhood!
Mahmoud	Hany	E3B 9L3	I don't know any Jail in our community
Marr	Line	E3B 0H6	My home is my biggest investment. This jail will diminish its value. We we never contacted about this proposal.
Marr	Stephen	E3B 0H6	Poorly thought out, no cost/benefit business case presented for justification nor location, no local road traffic pattern study presented, NB political rationale as presented for a new institution was non-existent. This is proposal is a time-bomb which would haunt the City of Fredericton for decades.
Martin	Tyler	E3B 8C6	We already pay way to much property tax for the quality of service provided to our area. Always near the last to be plowed. Poor police response time, a sketchy motel, a smelly dump, do I need to continue? Please find another location for this jail or I a young contributing member of Fredericton and UNB Engineering Grad will be moving home to Saint John sooner than the jail will be built!
Mary	Thomas	E2H 2W9	I am definitely against this prison being built so close to where our daughter and grandchildren live it will also depreciate the price of their home
Mattinson	Erin	E3B 9W9	Not in my front yard
Mccann	Karah	E6L 1A4	We already have enough people within the city limits causing issues we don't need to add convicted felons to that list.
McCarthy	Tara	E3B 0E9	I have a hard time understanding why this is the "ideal" location; adjacent to the largest subdivision in the city; when there are clearly other more suitable locations available.
Mccutcheon	Angelene	E3B 0P9	I have significant concern about the proposed location for a new correctional facility. Being within 500 metre-2km proximity to residential housing is unacceptable and therefore should not pass approval.
McDonald	Lindsay	E3B 7J1	Anywhere away from residential neighborhood.
McKellar	Tina	E2V 4J7	I agree that we need a new Correctional building however not in the location that is being sought out.
McLellan	Emma	E3A 2G8	It is my understanding that of the 400 odd male inmates in NB currently, most are in jail waiting on bail and or hearings for non violent crimes. It is not in the best interest of civilians to have such an expensive security risk so close to home. I believe the money would be better spent elsewhere, possibly in ways to prevent theft and drug dependency's to help keep our people out of jail.

Michaud	Monique	E3A 2K8	Correctional facilities should not be built within the Fredericton and surrounding area.
Mironuk	Katia	E3G 0Z9	No new correction facility in Fredericton
Mongeon	Diana	E3B 0H7	Jails need to be in a totally remote and more secured area where there is absolutely no possibility for any easy access to any community. People are in jail and isolated for a reason -- it's crime. There is no place for that in a family neighbour hood. It will instill fear, lower property values and raise property taxes, which are already way to high
Morales Castillo	Yanepsys	E3B 7J7	Correction Center should be far away from cities specifically small ones like Fredericton. Also don't put one close to a residential area.
Morrison	Dr. Daryl	E3B 9S3	The very notion that the City of Fredericton's PAC would entertain such an application so close to a residential neighbourhood defies logic. What does this say about our leadership? Is there leadership? This investment is so far off the mark when it comes to caring for those that need it the most. In short, the money set aside for this institution should be redirected to investments in addiction and mental health services, homelessness and crime prevention- not building a jail. Perhaps Minister Carr, Minister Austin, and Mary Wilson need to plot another strategy to get re-elected. Don't knock on my door!
Mulholland	Donna	E3B 6M4	How about Miramichi instead. They already have correctional officer supply.
Mulholland	Chris	E3B 6M4	Better to locate in miramichi where greater access to trained personal
Murphy	Michelle	E3B 9T2	See our community document listing all the reasons why this locatisnit a wise choice for our city and residents. I'm saddened to think our city would put greed above their citizens well-being. My home should be the safest place to be.....it won't be if this jail is within a stones throw away
Murphy	Stephen	E3B 9T2	See our community document listing all the many reasons why I am opposed to this.
Nelson	Angela	E3B 9W9	Reevaluate the location. RSC 11 is expanding in the new year. Rwconsider other options.
Ng	David	E3B 3W8	Please consult with residences around that proposed erection of a jail to have majority consent and agreement
Nichol	Allison	E3B 9H5	There are other locations around Fredericton that are not in close proximity to large Subdivisions
Noble	Tania	E3B 7G2	I am very disappointed in the manner in which this proposed facility has been handled - the province selected a site without any community consultation. No one has adequately explained why a location within 2 km of hundreds of homes is a preferred location. I feel that our concerns are being ignored by both levels of government. This is particularly disappointing at the municipal level - we are your friends and neighbours.
Noel	Sara	E3B 9J4	As a single female this project makes me nervous about living in the area.
Norcott	Jeanette	E3A 2A9	I am not opposed to a jail around Fredericton but it should not be close to a residential or school zone.
Noreen	shama	E3B0E9	No
Norrad	Susan	E6A 1B4	Too close to homes.
Nowlan	Mark	E3B 9L3	I'd prefer not to see this facility built in the proposed area.
Nowlan	Melissa	E3B 9L3	I feel this type of facility should absolutely NOT be located near a residential neighbourhood. Please find a location outside the city in a more rural or isolated setting that will not impact any residences. If the province wants to build a facility within the city limits, how about building a very badly needed cat sanctuary for all the cats the SPCAs will not take!!
O'Brien	Christian	E3B 7J7	I don't want this jail.
O'Brien	Judy	E3B 9L5	A facility of this nature will not provide the City of Fredericton or Lincoln Heights Subdivision with any positive population or revenue growth.

			<p>City Council Members are urged to contemplate the above and ask themselves what is it the city or the subdivision has to gain by allowing this re-zoning. So who is gaining or what is gained if re-zoning is approved and this facility is built.</p> <p>The city approved the land for sale to the province for \$1,075,000. So the city's revenue is up by that amount. Compare that to the decrease the city coffers will experience if the re-zoning goes forward and the facility is built. The expansion planned for Lincoln Heights could quite possibly be cancelled.</p> <p>A guaranteed decrease in property values for existing homes in the Lincoln Heights subdivision which could then lead to a substantial loss in the approximate \$2.2 million annual tax revenues.</p> <p>Many financial factors as well as social issues have to be calculated reviewed and discussed. A decision of this magnitude cannot be done in two or even three evening meetings.</p> <p>It seems and feels as though there is a driving force behind the scenes to ensure this facility gets the go ahead.</p> <p>If it does get the green light, I believe it will be the worse decision the Fredericton City Council will have made since it's existence.</p> <p>A 13 minute drive from Vanier Industrial Park to the Fredericton Court House and the availability of water and sewer services is not a valid reason to destroy the lives of people who have worked all their lives to have a home paid for and who consider it an investment for their retirement to have it ripped from under them and become a worthless piece of real estate.</p> <p>I implore you....please do your due diligence in this matter!</p>
Oliver	jonathan	E3B 7G2	<p>Correctional facilities should not be built near neighborhoods. There are lots of crown land outside the city limits that would be suitable for this type of facility. However, the province should consider a proactive approach, such as implementing programs on preventing crime and keeping people out of jail (mental health programs) rather than taking a reactive approach - locking people up is not the answer, helping them is.</p>
Ozdogan	Suzan	E3E 1A3	<p>Please don't turn this beauty city Fredericton into a derelict zone any more than it's becoming. We have already become a magnet to the homeless as a sanctuary. If you bring a jail into the city then the rest of the herd and families will follow. Build it far out of the city. We have plenty of land in NB.</p>
Palacios	Ricardo W	E3B 3V5	<p>I feel outrage at the location of this project. One of my first thoughts was, why? All the available land in New Brunswick, and this is what you choose. This is too close to a residential area.</p> <p>I think the people in charge should go back and do the work they did not do when choosing this location.</p> <p>If a new correction facility is needed, explore a better suited location outside the greater Fredericton area or near any residential areas.</p>
Park	Glenn	E3B 9X9	<p>The value of our homes will go down. No one want to be living near a jail. Money can be spent on long term rehab for the homeless and for people with addictions with a good in impatient treatment and skills</p>
Passaris	Constantine	E3B 5V9	<p>The proximity of the proposed site to a residential neighbourhood with young children elevates the risk to this group of Frederictonians and indeed to the whole community.</p>
Patel	Mital	E3B 7J6	<p>Aside from the obvious concerns around decreasing Property values for homeowners, there are other issues with the general nature of being in such close vicinity to the Correctional Facility. This will strongly affect the neighborhood in future developments and zoning that would benefit the community.</p> <p>New Brunswick is a large Province with many parcels of remote land – why is this the section where a correctional facility needs to go? Why in the City limits, and so close to a residential neighbourhood?</p> <p>I strongly oppose any proposed or future correctional facility being built in City limits, and especially within the Lincoln Heights neighbourhood.</p>
Patel	Nirav	E3B 3V9	<p>Correctional system is not required in Fredericton.</p>

Paynter	Martha	E3B 2K6	No need for a new jail ever
Pearlston	Karen	E3A 5B7	No new jail. The funds should be diverted to community services.
Pearson	Gloria	E3B 7G3	There are lots of better locations than this close to a large subdivision - like the old NB Central Reformatory location
Pelkey	Grace	E3A 9L9	Invest in the people of NB not prisons
Peters	Wendy	E3B 8P1	I just really feel that this is too close to a predominately residential area.
Phillips	Kevin	E3C 1H2	A jail doesn't belong in a residential area.
Phillips	Melissa	E3C 1H2	A jail doesn't belong in a residential area.
Pierre	Eric	E3B 1G4	If the current system of justice worked at lowering crime rates, we would be destroying jails, not building new ones. There's a reason that the current system is not working, and alternative measures on lowering crime rates need to be investigated.
Poirier	Claudette	E3B 9L3	I am against the rezoning specially for the Vanier industrial Park for the location of The correctional facility and any future proposal for such facility adjacent to our neibeighborhood.
Power	Connie	E3B 8R9	I don't live in Lincoln Heights, I live on the Nevers Rd. But I don't want this so close.
Qing	Zhao	E3B 2S7	We should build a jail in a place far from city .
Quek	L.C.	E3C 1L9	1. Insignificant economic gains for the proposed area in terms of employment or spin off spending power of the increase in employment. In addition, low returns on investments. 2. Devalue the market value of nearby residential houses. 3. Residents in nearby area feel insecure to have a jail so near their homes.
Rea	Shawn	E3A 1J5	Our city does not need to be the new home for this facility. Terrible for our community and those in it.
Reid	Kristal	E3B 9L3	Given the other options available, having a jail within WALKING distance to a residential subdivision with young children is not only absurd, but negligent. I hope the city reviews the other proposed options for the proposed jail in Fredericton, keeping in mind that constituents do not want it in their back yards. I would hate to see an exodus of my fantastic neighbours to places like the Hanwell (where we may well be, should this be approved).
Reid	Lauren	E3B 0E3	I believe the jail is being built too close to a large residential neighborhood that is still in the process of expanding and very close proximity to an airport with very active air space and a flying school.
Renaud	Lise-Anne	E3B 0H4	The location of the proposed prison is very close to a significant residential community which is still in expansion and being developed. Prison locations have a great negative impact on value and desirability of properties in their vicinity and very little economic benefits to be this close to town.
Richardson	Debbie	E3B 9K9	- Disappointment with City's lack of consultation and its regard to the safety and growth of Lincoln Heights and surrounding neighborhoods. -The residents of Lincoln Heights and surrounding neighborhoods should not have to pay the cost to inject \$1M+ to the City's coffers for pet projects.
Richardson	Debbie	E3B 9K9	- Disappointment with the City's lack of consultation and its little regard to the safety and growth of Lincoln Heights and surrounding neighborhoods. - The residents of Lincoln Heights and surrounding neighborhoods should not have to pay the cost to inject \$1M+ to the city's coffers for pet projects.
Richardson	Lindsay	E3B 9K9	-Disappointment with the City's lack of consultation and its little regard to the safety and growth of Lincoln Heights and surrounding neighborhoods. -The residents of Lincoln Heights and surrounding neighborhoods should not have to pay the price to inject \$1M to the City's coffers for pet projects.
Robertson	Jeanette	E3B 1X3	Prisons should not be within a city.

Ross	Jessica	E3B 7G2	Correctional facilities should not be built near neighborhoods. Other locations outside the city could be much more suitable for this type of facility. More focus needs to be put on prevention and mental health, rather than taking a reactive approach to building a facility to house these people.
Ross-Cassidy	Tammy	E3B 9H7	This is not an appropriate location for a jail. Residents should have been consulted.
Roth	Corina	E3B 5J8	We do not need to jail this close to a residential area, and the old money talks. Bullshit walks things should come into play since the Southwood Park was destroyed, and the city kept selling the property project changed numerous hands and yet, despite our protests and meetings, they were all in vain, because the city had already decided and been bought out, come on folks we do not want this in our front yard
Roy	Michael	E3B 7J7	<p>A correctional center does not belong anywhere near the homes of honest citizens. They belong in a rural area, away from citizens and away from suburban society. This is a family-oriented neighborhood and should not have such a negative presence. We chose to live here because of the benefits to living here and knowing what the area was like before we bought. You cannot just throw this into our midst. It will depreciate home values and introduce a threat level to living in this area.</p> <p>In my opinion, correctional centers generally do not work as most of the inmates commit low level crimes which are often substance abuse related or survival based. The inmates should be given the help they need to turn their lives around so they can get out of these cycles of incarceration.</p>
Ruslan	Rusanov	E3B 0E3	Strongly disagree with building the correction facility near our residential area
Russell	David	E3B 7G8	This area is not remote and too close to residential areas. This jail needs to be built in a remote area.
Ryder	Sue	E3B 5H3	Far too close to housing development!!! We have so many forested areas in NB that would allow for a facility to be built on many acres far from developed areas. Lastly, we need to spend more money on prevention such as family assistance, mental health and addiction services and less on jails!
Saadeh	Khalid	E3B 9N4	This correctional facility should be nowhere near residential homes. The government has a lot of land and should develop the facility elsewhere. The people of Lincoln Heights, or anyone else should not have a correctional facility be placed near them.
Sabourin	Stephane	E3B 7H4	This facility should not be built near any residential area. This decision shows a lack of respect for residents of that area by the city council.
Samimi	Veronika	E3B 0E9	I grew up in Lincoln Heights, it has always been a safe neighbourhood, a jail would destroy it. Was hoping to raise my kids there someday but not if there is a jail nearby.
Sandi	Mwenga	E3B 9L5	We are against having the jail built in this proposed location for several reasons: Safety, property value, and necessity. Although, it was proposed that this was thought out and the best location for the jail there were many considerations that were not taken and the largest one was consulting the effects of the residents nearby.
Sarah	Liu	E3B 9H5	Out of Fredericton city is very good choice
Sauvageau	Jean	E3A 2C8	I am a criminologist and I have been studying and teaching about the criminal justice system as a whole for over 35 years. Plain and simple, prisons are not the solution to crime, let alone the solution to the social and health issues which the most vulnerable New Brunswickers are suffering from. The solution is in social and health programs and services - not prisons.
Schuler	Daniel	E3A 3N9	Too close to residential area
Sharpe	Kelsie	E3B 8M7	This is in a residential neighborhood
Shyu	Larry	E3B 1H6	The correctional facility should not be located near residential area of the city.

Sinclair	Lori	E3C 1K5	The province does not need another correctional facility! Invest in supports for addiction, mental health, homelessness!
Small	Mitchell	E3B 9L5	While I agree that a new correctional facility is required for the greater Fredericton region, I do not believe that it should be located so close to a growing residential area.
Smith	Marilea	E3B 7G2	While choosing a site for a correctional facility is not easy, there are other options that better meet the requirements and will not impact local residents as seriously. Please reconsider
Smith	Shelly	E3B 7G2	I do not support having a correctional institution in a residential area in Fredericton, esp in Lincoln Heights.
Smith	Spencer	E3B 7G3	Lots of good places to put it that aren't close to a neighbourhood with a bunch of kids and families
Solven	Frederick	E3B 1H9	No correctional facility within city boundaries seems most reasonable. And why are tens of millions of dollars to be spent when the pitiful homeless are still destitute?
Sovey	Larry	E3B 9L5	If these Councilors vote against the people's wishes. They must resign immediately as they no longer represent the people.
Stewart	Angie	E3B 7J7	This is disturbing and should not be placed this close to our subdivision
Stewart	Lydia	E3C 2H5	This proposition scares me and makes me want to move elsewhere.
Strang	Alison	E3B 7J7	I think we should be spending that money on the addiction services and mental health services already in place that need money and infrastructure to expand. And if you need more room in the correctional system release non violent criminals into these newly funded programs.
Sukhanevych	Maryna	E3A 1V6	I support this petition
Sun	Jian	E3B 7G2	Building a new jail in this location will hurt 1000 more residential houses value. Also this jail will make more than 3000 residents in a dangerous area. Huge people feel unsafe living here all because of the new jail.
Sun	Xiaoyan	E3B 6M1	I am emphatically opposed to the proposals.
Swanwick	Susan	E3B 7J7	Absurd that a jail would be considered so closely to a family residential area.
Taylor	Gage	E3B 9L3	Plenty of land around, no reason to have a correctional facility so close to houses
Tesla	Oksana	E3B 9S4	First of all, having so much land available around it just doesn't make sense to build a jail within sitting limits. Moreover, to build a jail right next to the family residential areas!? Seriously? I would love to hear the justification of this decision and to talk to this "genius" who came up with this idea. And I even don't talk about the real estate market, and future changes in the demographics of the closes areas.... the effect of first order of magnitude may be obvious, but have they done deep analysis and what problems it can cause?
Tohamy	Maany	E3B 9L3	I don't want a jail in our community
Van Liempt	Roman	E3C 1J8	A correctional facility needs to be farther away from a small city like Fredericton. Honestly...there must be a rural area that does not have a community right beside it available????
Vidal	Paul	E3B 7G2	New Brunswickers deserve better than more prisons. We need that money invested in education, mental health and addiction services. In addition, I simply do not want this abomination in my neighborhood. Our families deserve better. Please count on me being present for any and all events organized to oppose it's construction.
Vincent	He	E3B 9H5	Out of the city of Fredericton is a very good choice
Walker	Jennifer	E3B 7J6	Please consider a area that is not up and coming with more housing. Putting the jail will stall the growth that is happening in the area.

Walsh	Nicholas	E3B 1N7	<p>A new jail is not the solution to any of the problems we are currently facing. This money should be redirected towards mental health outreach and housing coordination for those impacted by the very severe housing crisis.</p>
			<p>This was the contents of my letter to the planning committee.</p> <p>Dear Fredericton City Councillors and Planning Advisory Committee members,</p> <p>I'm writing to voice my strong opposition to the re-zoning and sale of land in Fredericton to the Province of New Brunswick for the purpose of constructing a correctional facility and urge you to reject the re-zoning application made by the Province of New Brunswick.</p> <p>The provincial government refuses to share its reasoning or its "business case", according to criminologist Justin Piche from the University of Ottawa (interviewed by CBC for their November 2, 2022 story by journalist Karin's Donkin) for the construction of such a prison. They are withholding records that explains their decision. Another example of this government's refusal to show their citizens how major decisions that will influence our lives are made. Using "anecdotes" is not an effective way to make decisions about any issue. And if quantitative (numbers) data is not to their liking then perhaps they should support qualitative research instead, but evidence based decisions are needed here not decisions based on "anecdotes". Michael Boudreaux, a criminologist at St. Thomas University suggests in the November 2, 2022 CBC story that " if there is no serious problem with crime or with over capacity, then is this really a wise use of public money". Their weakly stated purpose of using the prison to "declare war" on drugs makes no sense, as trafficking sentences would be served in the Federal correctional system. All signs indicate that this facility will be targeting the most vulnerable members of our communities: people with mental illness and addictions who live in poverty. As a mental health provider who has been working in this region for over 20 years, this is not the way to treat people who suffer with mental illness or addiction. As Piche stated "building another site of human caging, when we know it is the most costly,ineffective, unjust and inhumane response to criminal acts is just a mistake".</p> <p>An August 2019 Guardian article by Jarred Bartle, a public policy consultant also states that prisons don't work. He suggests that if people pose a risk to the community, they should be heavily monitored and controlled but identifies that this can be done "outside the standard prison environment". He identifies that community corrections is already a part of other criminal justice systems and has been found to effectively control and treat offending behaviour. Community corrections is already active in Canada through community based residential facilities. These facilities provide an effective alternative to conventional forms of incarceration. Offenders regularly report back to a case manager who is tasked with funnelling the offender through educational programs community work and treatment programs designed to correct antisocial thinking and behavior. Bartle indicates that community corrections is no soft touch and the "risk of imprisonment looms large over programs if an offender breaks the rules". He also refers to non-custodial treatment orders. These are similar to community corrections but are more therapeutic in nature. On the Correctional Services Canada website under community corrections, there are a number of non-custodial treatment orders available for offenders such as Supervised/satellite apartments, hostels, private home placements, and community residential facilities. These options may be appropriate for offenders whose offending relates to alcohol or illicit drug use or is connected to an underlying mental health condition. Drug Treatment Courts (DTCs) have operated in other regions of Canada and the world since 1999. Based on the Government of Canada Justice website DTCs "Recognizes the complex social, economic, cultural, and health factors that contribute to problematic substance use and seeks to prevent reoffending in</p>
Walsh Park	Lorelei	E3B 9X9	

more comprehensive ways". Bartle indicates that DTCs "have been found to reduce recidivism more effectively than conventional custodial sentences". He also notes that for DTCs to be effective they require the ability to "make drug treatment orders, calling for the intensive treatment and monitoring of offenders with substance issues." Similarly, he mentions that "specialty jurisdictions exist for offenders with mental health issues. For example the assessment and referral court list often deals with accused persons who have a mental illness or cognitive impairment, lining them out with treatment agencies to deal with the underlying causes of offending." As you are likely well aware though, not all forms of offence are secondary to an underlying mental health concern or mental illness. Bartle suggests in his article that "for other forms of offending, a financial penalty may be more effective than a prison sentence." Another option is restorative justice. This is a victim centred alternative to criminal justice that focuses on the rehabilitation of offenders through reconciliation with victims in the community at large. While this is not suitable for all forms of offending, Bartle notes that "restorative justice measures have been shown to provide healing outcomes for both victims and offenders." Finally, prison tends to create more dangerous individuals. There is no good reason or justification why an individual arrested for drug possession, homelessness and public drunkenness should be placed in a prison. In our region this move would have the high probability of turning people into repeat, potentially violent, offenders. There are more socially and cost effective options that focus on prevention not punishment. In his article, Bartle refers to "justice reinvestment" . This is used around the world and according to the US Department of Justice website it is "a data driven approach to improve public safety, reduce corrections and related criminal justice spending and reinvest savings in strategies that can decrease crime and reduce recidivism." The approach is evidence-based and focuses on prevention versus focusing only on a cure. Building a prison in the City of Fredericton may seem like a great idea to implement a swift solution to the problems we face but it is "the" least effective strategy to make our community safer.

To allow a prison would directly support and facilitate the criminalization of vulnerable populations who were biologically, educationally or socioeconomically predisposed. The use of prisons to solve social problems has been deemed ineffective and barbaric by leading experts in criminology, sociology, health care and social work. Approving the re-zoning application and sale of this land within a few hundred metres of a family focused subdivision would be a serious mistake that would reflect badly on PAC members for the foreseeable future. We are all aware that PAC has, on multiple occasions, denied or entertained the denial of resources to houseless people and people experiencing addictions.

We are in the middle of an affordability crisis for housing, food, and fuel and the construction of a prison satisfies none of these needs. A prison in Fredericton would be a waste of time and resources (see above on the wealth of other community correctional options). Such resources and efforts would be better spent on addressing the actual, substantive crises affecting Frederictonians and New Brunswickers. This money could be better spent on affordable housing and allowing supported living situations for these populations. It could be invested in DTCs and into justice reinvestment approaches to crime prevention. Moreover, it would cause grave harm to the most vulnerable citizens of Fredericton and jeopardize the safety of the citizens living within close proximity to the prison were there ever to be an escape, riots or other unrest within the prison.

Again, I am in firm opposition to the re-zoning and sale of land in Fredericton to the province for the purpose of constructing a correctional facility. I urge you to reject the re-zoning application made by the Province of New Brunswick. "

			<p>This was the end of the original letter:</p> <p>Other questions that have arisen but have not been addressed:</p> <p>How will this interfere with the airport given there is a 1000ft no fly zone above prisons.</p> <p>What is their plan for how they will they secure our neighbourhood and the surround area in the event of a prison riot.</p> <p>What is their plan to inform residents of an escape given the prisoner could be at the nearest house in less than 10 minutes.</p> <p>The billboard are up advertising the Trans Canada Trail for snowshoeing and other winter activities. This trail is a Canadian, not just a New Brunswick, tourist attraction. The proposed site of this prison will disrupt the Trans Canada Trail.</p> <p>Someone needs to do the math for the city to look at how much property tax they stand to lose if all the properties in this subdivision depreciate in value. I am thinking that will be a significant loss to the city and ultimately a significant loss in our services as a result.</p> <p>Approving the building of this prison May open the City of Fredericton to a class action lawsuit from residents whose property value drops. I am sure that is something that the City would not want to have to deal with but could be a real possibility given the opposition to this.</p>
Wambolt	Jenn	E3A 3Y7	There is no need of another jail.
Wang	Jianwei	E3B 2A3	The proposed Jail site is too close to the Fredericton residents.
Wang	Li	E3B 7J7	<p>Lincoln Heights is a fast growing/expanding residential community with mostly young families with young children. The construction of the jail within 700 meters of the residential area has certainly become a significant safety concern for the families who have kids playing in the neighborhood, walking home after school when getting off the school buses.</p> <p>With the construction of the jail in such a proximity to the residential area, the property value of the area will undoubtedly be depreciated. This will have a negative impact on the growth and development of the community.</p>
Wang	Zhen	E3B 9S1	I am against with building a jail here
Warren	Michael	E3B 7G8	A prison so close to this many family homes is a reprehensible idea. IF this does get approved it will be under the cover of darkness. Keep the process transparent and keep the prison out of my neighborhood.
Webster	Dylan	E3G 6A5	Too close to a large residential neighbourhood. This wasn't put to a community vote. This stinks of greedy politicians stuffing their pockets.
Weeks	Jenna	E3B 4S2	I do believe that the finding put forth could go to better use in terms of rehabilitation and prevention in terms of mental health, youth programs for at risk teens, subsidy funding for businesses to hire people who have been persecuted.
White	Brian	E3B 5H2	Why not just build it at one of the current locations? Wouldn't that be cheaper?
Wilson	Dorothy	E3B 8W9	You need a remote area to build a jail and not in a community where there are families around. Possible locations : the interment camp on the North side heading towards Minto .
Wilson	William	E3B 8W9	I am concerned about the impact of any type of prison close to a residential area. The security of the neighbourhood and the the loss of the sense that we live in a safe area.
Wiseman	Danielle	E3B 9S2	Too close to houses - safety and housing value

Wolstenholme	Colleen	E3B 3P2	Not at all where government money is needed most. The fact that a jail is even in the running, considering the broken health care system, reflects negatively on the culture of this place. Perhaps targeting this problem through more funding for education and health care to deal with addiction and mental health issues would bode better for the future of this place.
Wu	Cheng	E3B 6L4	I like to see City of Fredericton providing land for build homes for the homeless people instead of building jail.
Wu	Doris	E3B 6L4	I am against building a jail within the Fredericton city boundaries without consultation with the residents. The safety of the residents is important. Fredericton is also facing a housing affordability crisis. City must put priority and more efforts on residents' housing issues; not building jails.
Xu	Alex	E3B 5J1	amazon
Xu	Gansheng	E3B 7J7	Lack of consultation and transparency; lack of research on potential social issues and economic impact.
Ye	Jianheng	E3B 5Z8	Very good location
Yevdokimov	Yuri	E3B 9H5	Outside Fredericton
Yu	Haifeng	E3B 0H4	Against to rezoning
Yuan	Yo	E3C 1P2	I don't want to live in a city with or near to a jail.
Zelazny	Vincent	E3A 4N7	The Province of NB has not made a convincing case to expand the prison system.
Zhang	Hui	E3B 6H2	Put more investment into Health System or affordable housing system instead of correctional system.
Zhang	Lizhu	E3B 9P8	The new Fredericton Jail should not build close to such a big residential.
Zhang	Qunliang	E3B 9H6	It is not acceptable to put the jail in Lincoln. Worried it will bring uncomfortable and unsafety and also it will bring the real estate price over there definitely. Why not select some other places in the north part with much less population?
Zhang	Yiqiao	E3B 0G3	correctional centre or jails shouldn't be too close to residential areas.
Zhao	Yue	E3B 1H2	We do not need the jail in NB
Zhao	Meng	E3B 0E3	Strongly opposite to build any jail near residential area. A responsible government should put citizens' safety as its first priority above any other considerations. Concerns from impacted residents need to be effectively addressed!
Zhou	Fei	E3C 1M3	Not agree
Zhou	Mian	E3B 0H7	It will bring down the development of Lincoln community for ever.
